

FRUIT-UP YOUR MILK

DRINKS COMBINING THE BEST OF BOTH
WORLDS – SOLUTIONS FOR RTDS AND SYRUPS
TO MIX ON-THE-SPOT WITH MILK – SUITABLE
FOR DAIRY AND DAIRY ALTERNATIVES

The increasing consumer demand for natural products continues to be driven by a holistic approach in favor of a healthier lifestyle. Bottlers are responding by providing solutions that mix between categories in order to take advantage of their benefits in different ways.

An intriguing option to create a cross-category beverage is to combine the vital tastes and vitamins of fruit together with the indulging flavor and nourishment provided by milk. Gat Foods fruit and milk drinks are an indulging yet refreshing beverage characterized by a light mouth feel. This unique profile enables brands to offer consumers a product that is suitable for many consumption options.

Whether your business is fruit-based beverages or dairy drinks, Gat Foods has the solution for you.

Our offer includes:

- Bases and compounds for fruit and milk drinks – with +10% fruit content to be mixed with pasteurized milk (skimmed to whole milk, milk powder). Optional also for yogurts.
- Fruit syrups for dilution in milk for on-the-spot mixes enriched with vitamin D. Flavors for children and adults are available.
